Iowa Workforce Development Statement on CIETC Verdict

“Iowa Workforce Development is glad that this portion of the CIETC trials is finally over,” stated Iowa Workforce Development Director, Elisabeth Buck. “We continue to focus on moving the agency in a positive direction by providing exemplary services to our customers through our partnership with Des Moines Area Community College. We need to continue to develop new strategies to deal with the pending workforce skills shortage which is facing our State. As an agency, we are committed to ensuring the stringent oversight and monitoring of public funds to prevent issues such as this from occurring in the future.”
